|---|---|
| _ | INDEPENDENT AUDITORS' REPORT  |
|   | To the Village Board Village of Wyanet, Illinois  |
|   | Opinions  |
| _ | We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Village of Wyanet, Bureau County, Illinois, as of and for the year ended April 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.   |
|   | In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Wyanet, Bureau County, Illinois, as of April 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.   |
|   | Basis for Opinions  |
|   | We conducted our audit in accordance with auditing standards generally accepted in the United States of America Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village of Wyanet, Bureau County, Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. |
|   | Management's Responsibility for the Financial Statements  |
|   | Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.   |
|   | In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village of Wyanet, Bureau County, Illinois's, ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.  |
| _ |   |

| Auditor's Responsibility for the Au | idit of th | ne Financial | Statements |
|-------------------------------------|------------|--------------|------------|
|-------------------------------------|------------|--------------|------------|

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
  or error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Village of Wyanet, Bureau County, Illinois's, internal control. Accordingly, no such
  opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the Village of Wyanet, Bureau County, Illinois's, ability to continue as a
  going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Wyanet, Bureau County, Illinois's, basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the

basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

| established a policy to capitalize its capital assets and infrastructure.  |

#### FINANCIAL HIGHLIGHTS FOR THE PRIMARY GOVERNMENTAL FUNDS

- a) The current assets of the Village of Wyanet at year end were \$1,830,544 which exceeded liabilities of \$287,383 by \$1,543,161.
- b) The total revenues were \$998,778 while total expenses (net of depreciation) were \$607,951.
- c) Budgeted expenses for the fiscal year ending April 30, 2022, were \$466,150.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Village's basic financial statements. The Village's basic financial statements are comprised of three components: 1) the Statement of Net Position and the Statement of Activities, collectively referred to as the government-wide financial statements, 2) the fund financial statements, and 3) notes to the financial statements. In addition, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Village of Wyanet.

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business. The government-wide statements provide short and long-term information about the Village's financial status as a whole.

The Statement of Net Position is similar to a balance sheet and presents information on all of the Village's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the Village's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing to related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods.

The government-wide financial statements of the Village are divided into two categories:

- a) Governmental activities–Most of the Village's basic services are included here, such as the streets, recreation, and general administration. Property taxes, state-shared revenue, charges for services, and court revenues provide most of the funding.
- b) Business-type activities—The Village's water, sewer, and garbage services are treated as business-type activities. The Village charges fees to customers to help it cover the costs of certain services it provides.

#### THE VILLAGE AS A WHOLE

Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the Village's governmental and business-type activities.

Table 1

|----------|---------|--------------|
|----------|---------|--------------|

The transfers between funds show a difference of \$(5,281). That amount is shown in the Fund Financial Statements under the Fiduciary Funds as a transfer in from the General and Proprietary Funds. The Statement of Activities reports only the activities of the Governmental and Proprietary Funds. The Cemetery Funds are not part of the General or Special Revenue Funds and as such, are reported as Fiduciary Funds.

#### CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

The Village's investment in capital assets for its primary governmental activity as of April 30, 2022, amounts to \$857,491 (net of accumulated depreciation and debt). The capital assets including land, buildings, and equipment were valued at historical cost and are being depreciated over their remaining estimated useful life. These capitalized assets are those that were deemed to have future economic value.

#### NEXT YEAR'S FACTORS AFFECTING FINANCIAL POSITION

Management is not aware of any facts, decisions, or conditions known as of the close of audit fieldwork that are expected to have significant effects on the position or results of operation for the Village of Wyanet.

#### **CONTACT US**

This report is intended to aid our residents, taxpayers, and other interested parties in understanding the Village's financial condition. Contact the Village Clerk or Treasurer for additional information at the Village Clerk's Office in Wyanet, Illinois.

| NOTES TO FINANCIAL STATEMENTS  |
|--|
| NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES   |
| The Village of Wyanet (the "Village") operates under a Board-President form of government. The Village's major operations include public works and general administrative services. In addition, the Village operates water and garbage services.  |
| The Village's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable), that does not conflict with or contradict GASB Pronouncements. Although the Village has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the Village has chosen not to do so. The more significant accounting policies established in GAAP and used by the Village are discussed below. |
| A. REPORTING ENTITY  |
| These financial statements present the Village and include governmental and business-type activities (the primary government).   |
| As defined by GASB No. 14, component units are legally separate entities that are included in the Village's reporting entity because of the significance of their operating or financial relationships with the Village Management has determined that there are no component units that are or should be included in the Village's reporting entity.  |
| B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS   |
| The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Village's public works and general administrative services are classified as governmental activities. The Village's water and garbage services are classified as business-type activities.   |
| In the government-wide Statements of Net Assets, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reported on a full accrual economic resource basis, which recognized all long-term assets and receivables as well as long-term debt and obligations. The Village's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.  |
| The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions and business-type activities (public safety, public works, etc.). The functions are also supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating and capital grants. Program revenues must be directly associated with the function (public safety public works, etc.) or a business-type activity. Operating grants include operating-specific and discretionary   |

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales

(either operating or capital) grants while the capital grants column reports capital-specific grants.

and use taxes, certain intergovernmental revenues, interest income, etc.).

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS (continued)

The Village does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net assets resulting from the current year's activities.

#### C. BASIC FINANCIAL STATEMENTS – FUND FINANCIAL STATEMENTS

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures/expenses.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The Village electively added funds, as major funds, which either had debt outstanding or specific community focus.

#### 1. Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The Village reports these major governmental funds and fund types:

- a. The general fund is the Village's primary operating fund. It is used to account for and report all financial resources except those required to be accounted for in another fund.
- b. The special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specific purpose.

The activities reported in these funds are reported as governmental activities in the government-wide financial statements.

#### 2. Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The Village reports the following proprietary fund types: water, sewer, and garbage.

Proprietary funds are required to be used to account for operations for which a fee is charged to external users for goods or services, and the activity is financed with debt that is solely secured by a pledge of the net revenues. The activities reported in these funds are reported as business-type activities in the government-wide financial statements.

|   | VILLAGE OF WYANET NOTES TO FINANCIAL STATEMENTS  |
|---|--|
|   | NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)   |
|   | C. BASIC FINANCIAL STATEMENTS – FUND FINANCIAL STATEMENTS (continued)  |
|   | 3. Fiduciary Funds   |
| _ | Fiduciary funds are used to report assets held in a trustee or agency capacity for the Village, and therefore, are not available to support Village programs. The reporting focus is on net position and changes in net position and are reported using accounting principles similar to proprietary funds.  |
|   | The Village's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose, and agency). Because by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.  |
| _ | D. BASIS OF ACCOUNTING   |
|   | Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.   |
| _ | 1. Accrual   |
|   | Both governmental and business-type activities in the government-wide financial statements and the proprietary financial statements are presented on the accrual basis of accounting. Property taxes are reported in the period for which levied. Other nonexchange revenues, including intergovernmental revenues and grants, are reported when all eligibility requirements have been met. Fees and charges and other exchange revenues are recognized when earned, and expenses are recognized when incurred.   |
|   | 2. Modified Accrual  |
|   | The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recoded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Property tax revenues are recognized in the period for which levied, provided they are also available. Intergovernmental revenues and grants are recognized when all eligibility requirements are met and the revenues are available. Expenditures are recognized when the related liability is incurred. Exceptions to this general rule include principal and interest on general obligation long-term debt and employee vacation and sick leave, which are recognized when due and payable. |
| _ | E. FINANCIAL STATEMENT AMOUNTS   |
|   | 4. Cook and Cook Equivalents   |

#### 1. Cash and Cash Equivalents

The Village defined cash and cash equivalents for the purpose of reporting cash flows to include cash accounts, which are not subject to withdrawal restrictions or penalties, and all liquid debt instruments purchased with an original maturity of three months or less, excluding certificates of deposit.

#### 2. Certificates of Deposit

The Village includes all certificates of deposit regardless of original maturity to be certificates of deposit.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### E. FINANCIAL STATEMENT AMOUNTS (continued)

#### 3. Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

| Machinery and Equipment | 5 - 10 years  |
|-------------------------|---------------|
| Buildings               | 20 - 50 years |
| Water System            | 30 - 50 years |
| Improvements            | 10 - 20 years |
| Other Infrastructure    | 10 - 50 years |

#### 4. Property Tax Calendar and Revenues

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy is divided into two billings: the first billing is an estimate of the current year's levy based on the prior year's taxes; the second billing reflects adjustments to the current year's actual levy. The first billing is mailed in May of each year and consists of two installments due by June and September, with penalties and interest charged on late payments.

#### 5. Defining Operating Revenues and Expenses

The Village's proprietary funds distinguish between operating and nonoperating revenues and expenses. Operating revenues and expenses of the Village's water and garbage funds consist of charges for services and the cost of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

#### 6. Government-wide and Proprietary Fund Net Assets

Government-wide and proprietary fund net assets are divided into three components:

- a. **Invested in capital assets, net of related debt** consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- b. **Restricted net assets** consists of net assets that are restricted by the Village's creditors (for example, through debt covenants), by state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- c. Unrestricted all other net assets are reported in this category.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### E. FINANCIAL STATEMENT AMOUNTS (continued)

#### 7. Governmental Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

- a. **Non-spendable** Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- b. **Restricted** Amounts that can be spent only for specific purposes because of the Village Board, state or federal laws, or externally imposed conditions by grantors and creditors.
- c. **Committed** Amounts that can be used only for specific purposes determined by a formal action by Village Board ordinance or resolution. This included the Budget Reserve Account.
- d. **Assigned** Amounts that are designated by the President for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval (for capital projects or debt service) by Village Board.
- e. **Unassigned** All amounts not included in other spendable classifications.

#### 8. Interfund Activity

Interfund activity is reported as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

#### 9. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

#### 10. Subsequent Events

In accordance with the Subsequent Events Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification, in preparing these financial statements, the Village has evaluated events and transactions for potential recognition or disclosure through July 3, 2022, the date the financial statements were available for use. The Village is not aware of any subsequent events requiring disclosure in the financial statements, based on the above criteria.

#### NOTE 2. CONCENTRATION OF CREDIT RISK

The Village maintains its cash and cash equivalents and certificates of deposit in highly reputable financial institutions. The accounts are insured by the Federal Deposit Insurance Corporation (FDIC). At times, amounts may exceed the amounts insured by the FDIC, but management believes the credit risk related to these amounts to be minimal.

#### NOTE 3. CHANGES IN CAPITAL ASSETS

|   |          | Governmental<br>Activities        |               |                          |    |                                   |                  | Business-Type<br>Activities                 |                  |                               |                  |   |  |  |

The Garbage fund purchased a new metal building to house the new garbage truck for \$56,200, paying cash for the purchase In March the Village sold the old garbage truck for \$7,000. The original cost was \$57,500 and was fully depreciated.

#### NOTE 4. NOTES PAYABLE

The Village has one outstanding note:

The Garbage Fund took out a promissory note from the Midland States Bank in the amount of \$130,000. The monies were used to purchase a garbage truck. Total payment monthly is \$1,702.43 for 84 months with the final payment due December 15, 2027. The note was rolled over to the First State Bank in November and the payments changed to \$2,024.93 on a starting balance of \$114,000.

The note balances are as follows:

| NOTE                         | <br>2022      |     | 2021    | <br>PAYMENTS |
|------------------------------|---------------|-----|---------|--------------|
| Balances as of:              | \$<br>105,026 | \$_ | 124,351 | \$<br>19,325 |
| Garbage Fund - garbage truck | \$<br>105,026 | \$_ | 124,351 | 19,325       |

The Garbage fund paid \$3,156 in interest in the current year.

#### NOTE 5. DEFINED BENEFIT PENSION PLAN

<u>Plan Description.</u> The employer's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is affiliated with Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

Funding Policy. As set by statute, the employer's regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require the employer to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2021 was 9.43 percent. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Annual Pension Cost. The required contribution for calendar year 2021 was \$13,973.

The three-year trend information for the regular plan is as follows:

| Actuarial  |        | Annual     | Percentage  |    | Net        |
|------------|--------|------------|-------------|----|------------|
| Valuation  |        | Pension    | of APC      |    | Pension    |
| Date       |        | Cost (APC) | Contributed | _  | Obligation |
| 12/31/2021 | - \$ - | 13,973     | 100%        | \$ | _          |
| 12/31/2020 | \$     | 11,269     | 100%        | \$ | -          |
| 12/31/2019 | \$     | 9,426      | 100%        | \$ | _          |

The required contribution rate for 2021 was determined as part of the December 31, 2019, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 2019, included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 3.50% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10% per year depending on age and service, attributable to seniority/merit, and (d) post-retirement benefit increases of 3% annually. The actuarial value of your employer Regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets.

The employer Regular plan's unfunded actuarial accrued liability at December 31, 2019, is being amortized as a level percentage of projected payrolls on an open 22-year basis.

<u>Funded Status and Funding Progress</u>. As of December 31, 2021, the most recent actuarial valuation date, the Regular plan was 89.64 percent funded. The actuarial accrued liability for benefits was \$525,525 and the actuarial value of assets was \$471,057, resulting in an underfunded actuarial accrued liability (UAAL) of \$54,468. The covered payroll for the calendar year 2021 (annual payroll of active employees covered by the plan) was \$148,175 and the ratio of the UAAL to the covered payroll was 37 percent.

#### NOTE 5. DEFINED BENEFIT PENSION PLAN (continued)

The schedule of funding progress, presented as RSI following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

| time relative     | 10 1   | ijo dotadija. do | Actuarial          |                 |                |                | UAAL as a            |
|-------------------|--------|------------------|--------------------|-----------------|----------------|----------------|----------------------|
|                   |        | Actuarial        | Accrued            | Unfunded        |                |                | Percentage           |
| Actuarial         |        | Value of         | Liability<br>(AAL) | AAL             | Funded         | Covered        | of covered           |
| Valuation<br>Date |        | Assets<br>(a)    | Entry Age<br>(b)   | (UAAL)<br>(b-a) | Ratio<br>(a/b) | Payroll<br>(c) | Payroll<br>((b-a)/c) |
| 12/31/21          | - \$ - | 471,057 \$       | 525,525 \$         | 54,468          | 89.64% \$      | 148,175        | 36.76%               |
| 12/31/20          | \$     | 381,043 \$       | 448,424 \$         | 67,381          | 84.97% \$      | 141,748        | 47.54%               |
| 12/31/19          | \$     | 315,632 \$       | 378,624 \$         | 62,992          | 83.36% \$      | 140,065        | 44.97%               |

On a market value basis, the actuarial value of assets as of December 31, 2021, is \$616,172. On a market basis, the funded ratio would be 117.25%.

The actuarial value of assets and accrued liability cover active and inactive members who have service credit with Village of Wyanet. They do not include amounts for retirees. The actuarial accrued liability for retirees is 100% funded.
